Coach of the
Quarter

Why participate as a Career Coach?

"As a career coach, I feel it is important to share my experience with young adults to help them explore possible career options and future plans."

How is the experience for you?

"It's interesting to see the range of questions you receive. You really get a sense of the types of questions/thoughts that are going through student minds. It's exciting to see how into planning their futures they are!"

What is your favorite part?

"I've been involved with live virtual career fairs before. This was a much better option as you have a little more time to prepare a message and send it back to them as opposed to being swamped with many messages at one time."

Carey Taylor, Pilot
