

FAMILIES NEEDED FOR RESEARCH FOCUSED ON CHILDREN WITH COMPLEX HEALTH CONDITIONS

Does your child have an on-going health condition that requires him/her to visit several health professionals?

We are looking for NB families to take part in a confidential, one-on-one conversation with a research assistant from Mount Allison University to talk about your experiences. Your participation would involve a single interview session, around 30-60 minutes long.

To participate, or for more information about our study called
*“Children with complex health conditions:
Let’s learn who they are and their needs to better serve them!”*
please contact:
